THE FLORIDA DISASTER FOUNDATION

- The Florida Disaster Foundation is the direct support organization for the Florida Division of Emergency Management.
- The Foundation provides assistance, funding, and support in disaster response, recovery, and relief efforts for natural emergencies.
- These funds are designed to directly contribute to the immediate recovery of communities impacted by disasters and provide needed support where federal assistance stops.
- The funds are also used to enhance training opportunities for emergency management personnel statewide.
- Events like EM Day and FTEM would not be possible without your support.
