

# COVID-19: summary of cases and monitoring

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Cases: people with positive PCR or antigen test result		Cases: people with positive PCR or antigen test result	
Total cases		Risk factors for Florida residents	
Florida residents	801,371	Traveled	7,270
Non-Florida residents	10,692	Contact with a known case	303,813
Type of testing		Traveled and contact with a known case	8,051
Florida residents	801,371	Neither	482,237
Positive by BPHL/CDC	29,965	No travel and no contact	107,038
Positive by commercial/hospital lab	771,406	Travel is unknown	258,858
PCR positive	764,828	Contact is unknown	208,617
Antigen positive	36,543	Contact is pending	145,346
Non-Florida residents	10,692	Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.	
Positive by BPHL/CDC	314		
Positive by commercial/hospital lab	10,378		
PCR positive	9,620		
Antigen positive	1,072		
Characteristics			
Florida residents hospitalized	49,485		
Florida resident deaths	16,834		
Non-Florida resident deaths	209		
Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.			
More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at <a href="http://www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm">www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm</a> .			

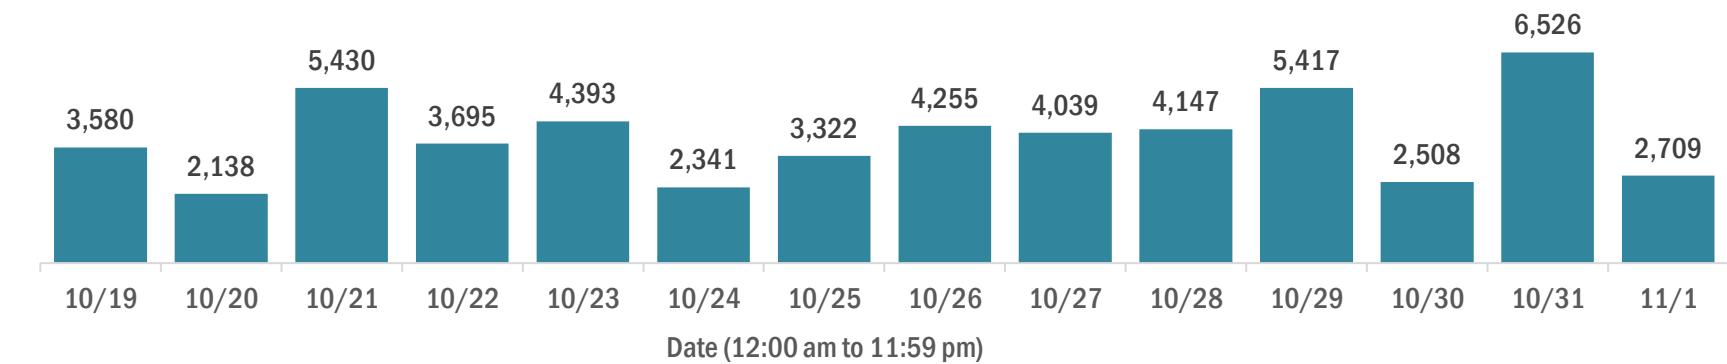

# COVID-19: summary of laboratory testing

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

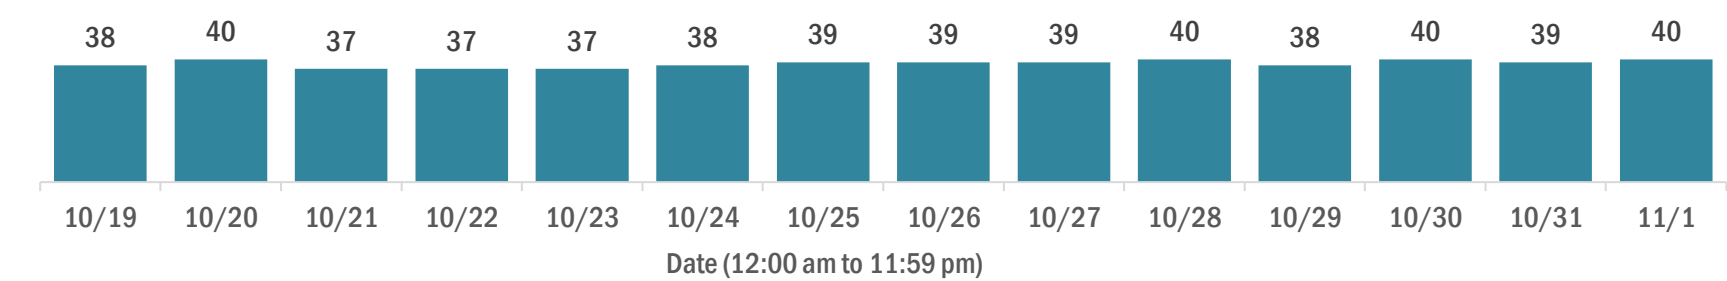

Data in this report are provisional and subject to change.

## Cases in Florida residents per day for the past 2 weeks

Number of cases per day

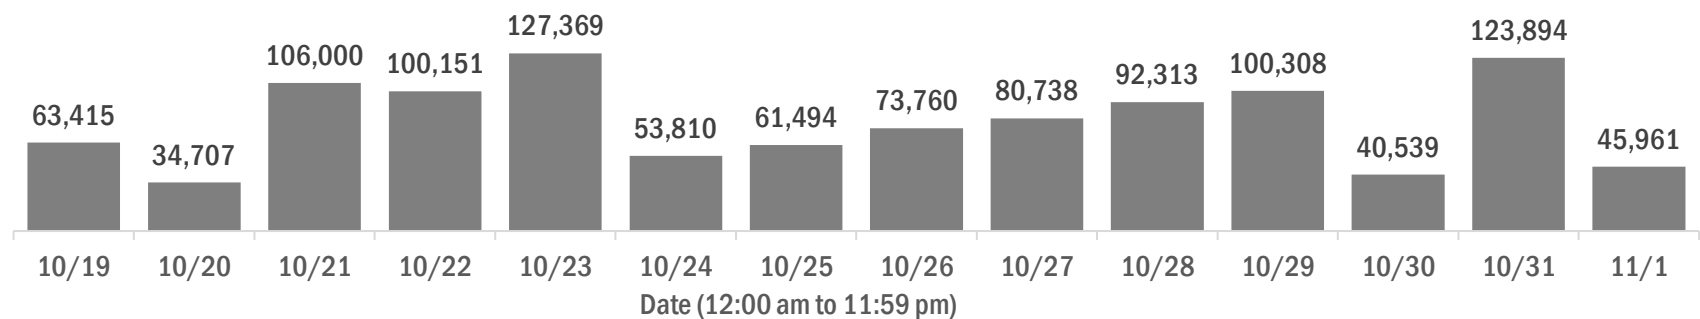

Median age of cases by day

## Laboratory testing for Florida residents over the past 2 weeks

### Number of Florida residents tested per day

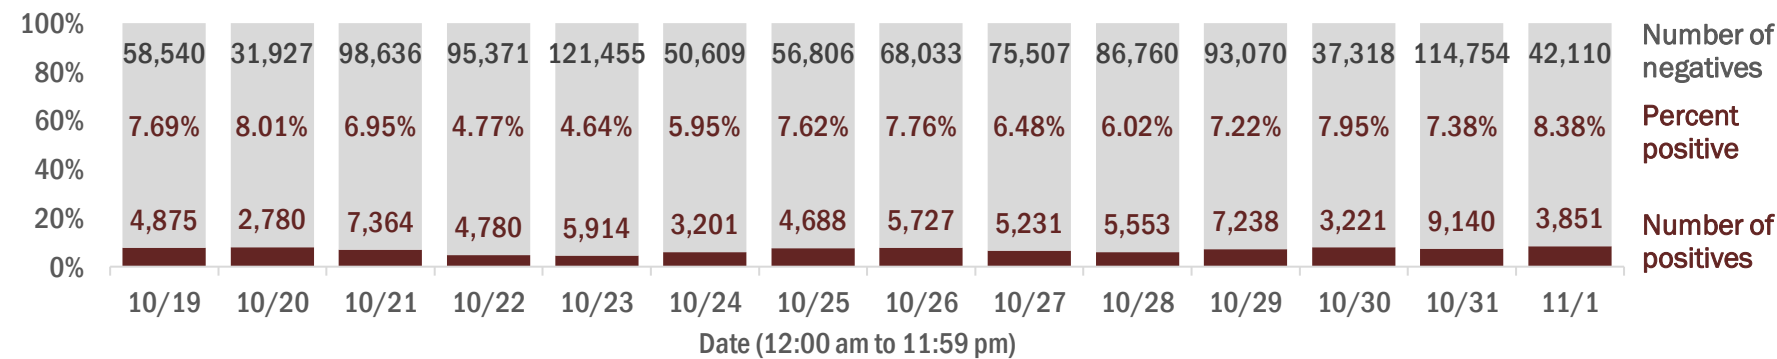

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

### Number and percent of Florida residents with positive test results

The percent of positive results ranged from 4.64% to 8.38% over the past 2 weeks and was 8.38% yesterday.

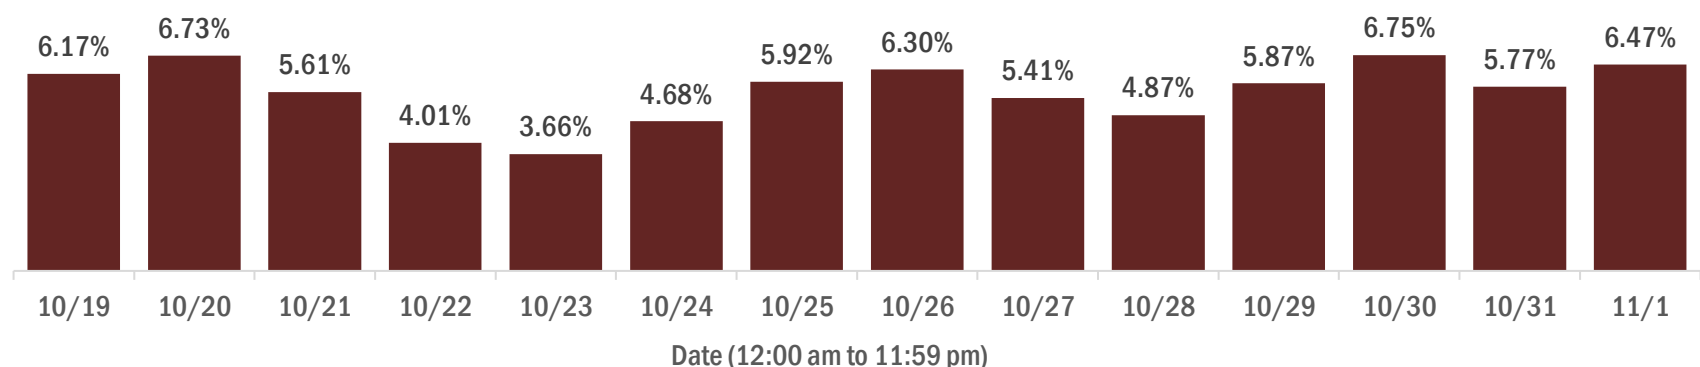

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

### Percent positivity for new cases in Florida residents

The percent of positive results ranged from 3.66% to 6.75% over the past 2 weeks and was 6.47% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

# COVID-19: characteristics of 801,371 Florida resident cases

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

# COVID-19: additional surveillance information

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Statewide emergency department (ED) chief complaint and admission data

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

# COVID-19: testing by laboratory

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 1, 2020 verified as of Nov 2, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**
